

General Instruction fo SAR Review

*At First, committee has to decide which member will review which part of a section. Each of the committee member have to review their assigned part of the chapter and upload the report (**Word format**) in PMS (before 10 February 2025). Then all the committee members will seat together with individual report and prepare a single committee report and upload the report (**Word format**) in PMS by committee lead (before 26 February 2025). During the review process any committee member can take assistance from any personnel from shop/department.*

At the start of the documents review, please mention individual reviewer name, designation, Shop/Dept. and email address and Review section/ sub-section name. Review the comments considering the following questions:

- 1. Does the reviewed section comply with the normative documents mentioned in the general contract? You have to provide the full report with the proper description in accordance with normative documents mentioned in the general contract.*
- 2. If the section contains any description of any system, explain whether the reviewed section includes the list of normative documents and does the section contains any inconsistency with the normative documents?*
- 3. Does the reviewed section prepare as per any IAEA safety standards / guidelines/ recommendations, as the reference documents? You have to check and mention with proper description.*
- 4. Does the reviewed section contain description of any equipment's? If yes, then You have to check the discrepancy and explain in accordance with equipment manufacturing documents.*
- 5. Does the reviewed section comply with the National laws, rules and Regulations of Bangladesh? You have to check any discrepancy and mention with proper description.*
- 6. Does the reviewed section differ with relevant SAW or test program or safety analysis report? You have to check and mention dissimilarities with proper description mention with SAW or test program or safety analysis report.*
- 7. If you have any remarks/ comments, please include those in the report as per the table format*
